

Tips for Data Representation

This webinar will provide tips and guidance on how to properly submit a data report that will be useful beyond the generation of the report. It will describe how to create a report by turning a pivot table into a reconciliation or summary that will be explanatory enough to stand on its own. Other tips provided will assist with how to properly fulfill requests from Open Records, Texas Attorney General's office, Legal Representatives, CFO's, Superintendents, and more so that anyone reviewing the report can understand the source information for data represented.
