

Beyond Boundary Planning: Using Location Analytics

Using location analytics to improve funding, student support, and employee recruitment and retention. Understanding locations in your district where extra services, such as tutoring, test prep or other wrap around programs, may need to be added to ensure every child is receiving equitable resources is crucially important. While it is preferred to educate students during school hours, while they're on campus, sometimes the learning must leave the building. The important question leaders must ask, and geospatial analytics can help answer, is, 'Where?'. This webinar will share how districts can leverage the power of location analytics to better serve their students and staff.

Wednesday, January 25th, 2023 | 10:00 AM

Presented by: Brenda Richmond, Senior Advisor, Analytics, Frontline Education

\$0 Member | \$60 Non-Member

CEU/CPE: 1
