Finance Roundtables

Tuesday, June 18 | 1:00 PM to 4:00 PM

Finance Roundtables

Have questions about school finance or your state aid template? Trying to understand the impact of the 88th legislature on your district's budget so you can explain it to your board? In this session, we will have experts in the area of school finance and school audits available to work with members one-on-one or in small groups. We will troubleshoot and answer questions around your state aid calculations, your district's budget situation, how to estimate and book settle-up, and how to scenario plan around the impact of alternative budget decisions. Come with the questions, or come and listen to the questions your colleagues ask!

Amanda Brownson Ph.D
